

Michael Georgariou III

<http://georgariou.com>

Dear Mr. or Mrs., Hi!

Email : 3@georgariou.com

Mobile : (831) 332-9962

EDUCATION

- **California Polytechnic State University**

San Luis Obispo, CA

Bachelor of Science in Computer Engineering; GPA: 3.53

Aug. 2017 – Jun. 2021

EXPERIENCE

- **Hewlett-Packard Enterprise (Aruba Networks)**

Roseville, CA

Embedded Software Engineering Intern

Jun 2020 - Dec 2020

- **Hubmode:** Assisted in creation of new switch mode to allow for hub-like functionality by disabling all L2 and L3 protocols and working with other teams
- **Test Suite:** Wrote feature tests to automate testing of this new mode and ensure no regression occurs

Software Engineering Intern

Jun 2019 - Aug 2019

- **Access Defaults API:** Created an API for multiple daemons to access new column data produced by my teams which determined whether or not a port has routing enabled
- **Refactoring:** Refactored all references in source code to certain column data to use the newly written API

- **Sea Sweepers Underwater Robotics**

Salinas, CA

Lead Electrical and Software Engineer

Jun 2014 - Aug 2017

- **Vehicle Control:** Implemented new systems for vehicle control and data transfer through serial communication
- **Circuit Boards:** Designed multiple PCBs to streamline the electrical design of the vehicle
- **Communication:** Engineered reliable communication protocol to ensure high speeds and minimal loss of data using the RS-232 standard

PROJECTS

- **AMD GPU Learning Kit**

Written in Markdown, open-source on GitHub

Aug 2020 - Present

- Co-authored a computing teaching kit that covers introductory topics about AMD GPUs
- Wrote sections on the ROCm toolkit, translating NVidia GPU code to AMD GPU code, and memory and data locality

- **YouTube Recommendation Radicalization**

Written in Python

Nov 2020 - Present

- Utilized Google's API to scrape data from YouTube's recommendation system
- Used Natural Language Processing to determine how politically radical a video is
- Assisted in research on how YouTube's recommendation system can radicalize people

- **Minls and Minget**

Written in C

Jun 2020

- Created a filesystem reader for Minix, for use outside of the Minix operating system
- Supported functions to list out the contents of a directory and print the contents of a file

- **Portable Weather Station**

Written in C for the MSP432

May 2020

- Wrote libraries for four different weather sensors for use with the MSP432 microprocessor
- Implemented these libraries to display all the data on an LCD screen

- **The Otter XADC**

Written in C and SystemVerilog

Mar 2020

- Designed a microprocessor from scratch in SystemVerilog to run assembly and C code on
- Created a library to allow use of the given hardware's XADC chip with our microprocessor in C

PROGRAMMING SKILLS

• **Languages:** C, C++, Python, Verilog, Assembly

Technologies: Git, Unix, Vim, Wireshark, Scapy
